**Says Viet Cong in Cuba  
Is Teaching Subversion**

Washington, July 17 (UPI)—An Anti-Castro group charged today that Viet Cong guerrillas were training Cubans to conduct subversive activity throughout Latin America.

The Communist Viet Namese military instructors "are now in Cuba working shoulder-to-shoulder with Latin American Terrorists," the Committee for a Free Cuba said in a report issued here.

The committee contended that both personnel from the Viet Cong, the rebellious South Viet Namese Reds— and North Viet Namese Communists were in Cuba.

**Murder on the High Seas**

At the same time, two Cuban refugee groups charged Premier Fidel Castro with "murder on the high seas." They called on the U.S. government and the Red Cross to rescue Cubans who are in international waters and trying to escape to Florida.

They charged that the straits of Florida had become the "Berlin Wall" of this hemisphere." For four Cuban refugees who manage to land in Florida they said, three others are machine-gunned to death by Castro-patrols.
